tehnologije

TRAVELSCENE

https://mihailoilic.github.io/TravelScene/

Smer: Internet tehnologije

Modul: Web programiranje

Predmet: Web programiranje 1

Mihailo Ilić 41/19

Sadržaj

1. Uvod

1.1 Korišćeni programski jezici/tehnologije

Za potrebe sajta korišćene su sledeće tehnologije:

- HTML 5
- CSS 3 + SASS
- Bootstrap (samo CSS)
- JavaScript
- jQuery
- jQuery plugin – lightGallery
- XML (sitemap)
- Visual Studio Code
- Photoshop

1.2 Opis funkcionalnosti

Funkcionalnosti sajta se mogu svrstati u sledeće kategorije:

- **Dinamičko učitavanje navigacije** (glavni meni za veće rezolucije, meni za mobilne uređaje(hamburger), kao i meni u futeru). Klikom na link animacijom se dolazi do željenog odeljka na stranici. Pored toga, prilikom svakog skrolovanja **dinamički se boji link odeljka** na kom se korisnik trenutno nalazi
- Efekat kojim glavni meni (za veće rezolucije) **postaje proziran ili dobija pozadinu** u odnosu na to da li se korisnik nalazi na vrhu stranice ili ne
- **Interaktivni slajder** gde se pozadinske slike same smenjuju na određeno vreme, a to može izvršiti i korisnik klikom na strelicu za sledeću/prethodnu pozadinsku sliku
- **Dinamičko učitavanje turističkih ponuda**, a sadržaj se preuzima iz objekta – u ovom odeljku se prvo korisniku prikazuju države, a klikom na neku od njih učitavaju se destinacije/ponude koje toj državi pripadaju (klikom na destinaciju otvara se modal)
- **Modal sa dinamički učitanim opisom ponude** koju je korisnik odabrao i formom za zakazivanje putovanja
- Forma u okviru modala koji se otvara klikom na ponudu – korisnički unos **proverava se regularnim izrazima** i na taj način se interaktivno korisniku daje do znanja da li je sve ispravno uneto ili ne
- Dinamičko učitavanje odeljka Top Deals u okviru kog se prikazuju destinacije iz niza – klikom na destinaciju takođe se otvara modal sa detaljima, a korisniku je naznačen i **tajmer koji odbrojava do kraja dana**, odnosno za koliko vremena te ponude ističu
- **Animacija kojom se pojavljuje odeljak** Why Choose Us prilikom skrolovanja u njegovu tačku gledišta
- **Dinamičko ispisivanje statistike firme i kratki efekat inkrementacije** brojeva do odgovarajućih vrednosti koji se dešava svaki put kad se skroluje u tačku gledišta ovog odeljka

- **Galerija** – klikom na sliku dobija se uvećan prikaz realizovan pomoću jQuery plugina **lightGallery**
- **Dinamičko ispisivanje utisaka (svedočenja)** klijenata – **interaktivan slajder** u kom se korisniku nudi da pređe na sledeći/prethodni utisak, a strelice kojim se to realizuje se prikazuju samo ukoliko postoji sledeći/prethodni slajd
- Kontakt forma - korisnički unos proverava se **regularnim izrazima** sa povratnim informacijama o ispravnosti unosa i uspešnog slanja poruke

1.2 Template

Za izradu sajta korišćeno je gotovo rešenje, odnosno CSS Template:

https://themeforest.net/item/laveria-tour-travel-agency-template/28913025

Izvršene su modifikacije u većoj meri za potrebe ovog sajta, a originalni CSS kod je ostao nepromenjen (modifikacije su rađene u zasebnom fajlu). Svi originalni JavaScript fajlovi su obrisani, i funkcionalnosti napisane ispočetka.

2. Organizacija

2.1 Organizaciona šema
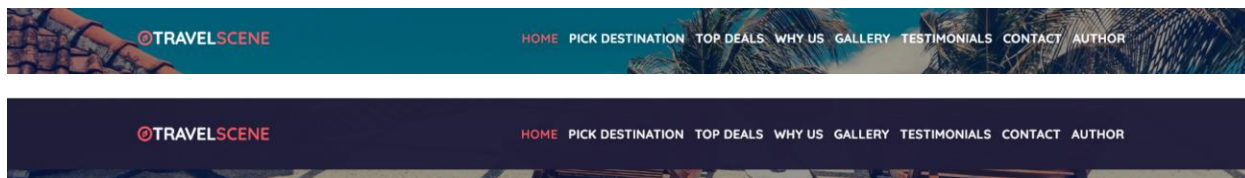

Sajt je realizovan kao single-page. Jedina web stranica je **index.html**.

2.2 Mapa sajta

```xml
<?xml version="1.0" encoding="UTF-8"?>
<urlset xmlns="http://www.sitemaps.org/schemas/sitemap/0.9">
<url>
  <loc>https://mihailoilic.github.io/TravelScene/</loc>
  <lastmod>2020-12-11</lastmod>
  <changefreq>daily</changefreq>
  <priority>1</priority>
</url>
</urlset>
```
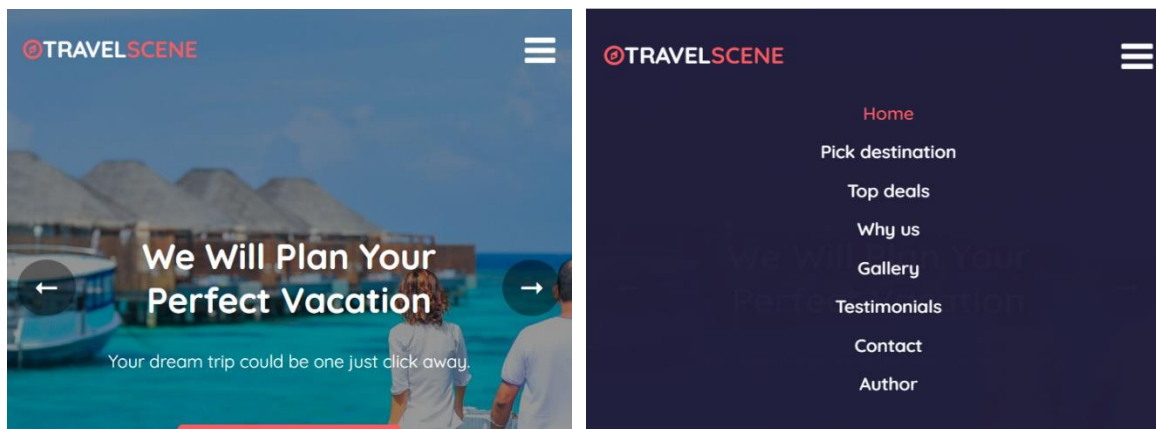

2.3 Slike odeljaka na stranici i opisi funkcionalnosti

2.3.1 Navigacija

Na vrhu se nalazi fiksno pozicionirana navigacija, odnosno **glavni meni za veće rezolucije**. Ako se korisnik skrolovanjem udalji od vrha stranice, čitav blok za logo i navigaciju dobiće pozadinu. Link ka odeljku na kom se korisnik trenutno nalazi je dinamički obojen.

Prikaz za mobilne uređaje: Umesto glavnog menija za veće rezolucije inicijalno je prikazano dugme (hamburger) za otvaranje menija za mobilne uređaje i manje rezolucije. Klikom na isto otvara se i zatvara meni. Ovde su takođe obojeni linkovi ka odeljcima na osnovu toga gde se korisnik nalazi. Čitav gornji blok za logo i navigaciju dobija pozadinu prilikom otvaranja menija nezavisno od toga da li je korisnik na vrhu stranice ili ne.
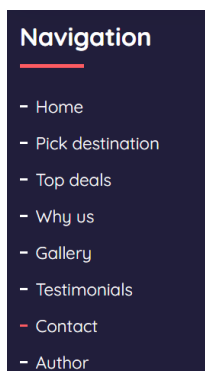

Navigacija se može pronaći i u **podnožju stranice** (futeru).

Sva tri menija sadrže linkove ka sekcijama u vidu liste koja je **dinamički kreirana**. Klikom na link glatkom animacijom se dolazi do željenog odeljka.

2.3.2 Odeljak Home
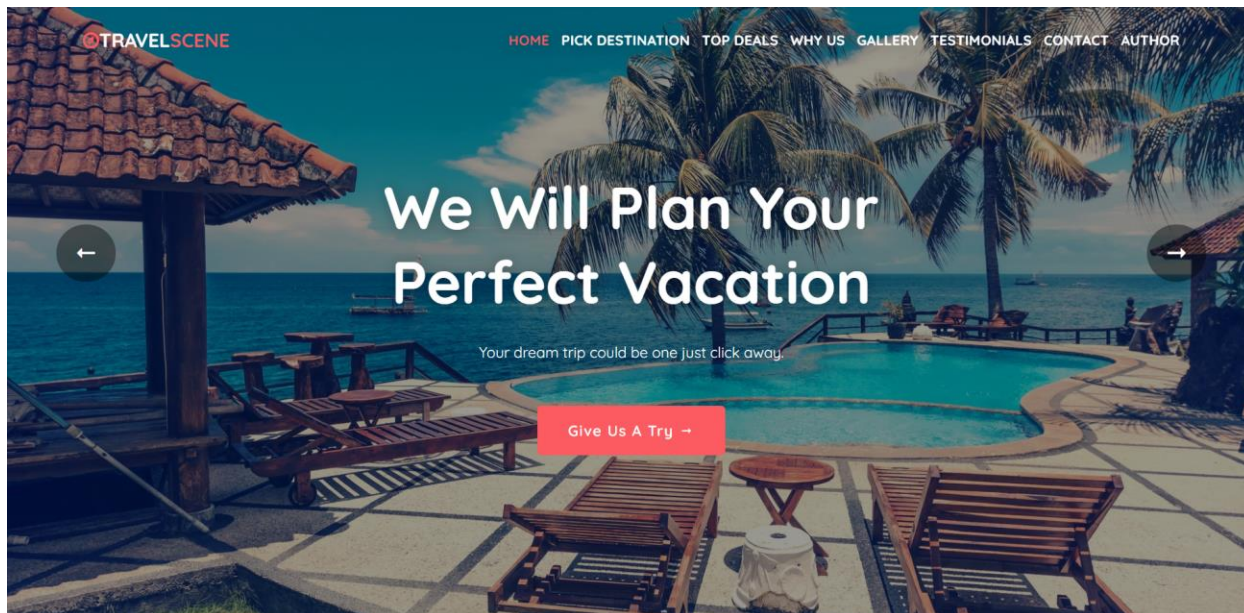

Ovaj odeljak se svodi na **slajder**, koji se proteže preko cele širine i visine ekrana, a pozadinska slika se menja animacijom na svakih par sekundi ili kad korisnik klikne na strelicu za prethodni ili sledeći slajd. Na sredini nalazi se glavni naslov sajta i dugme koje vodi ka odeljku Pick Destination glatkom animacijom.
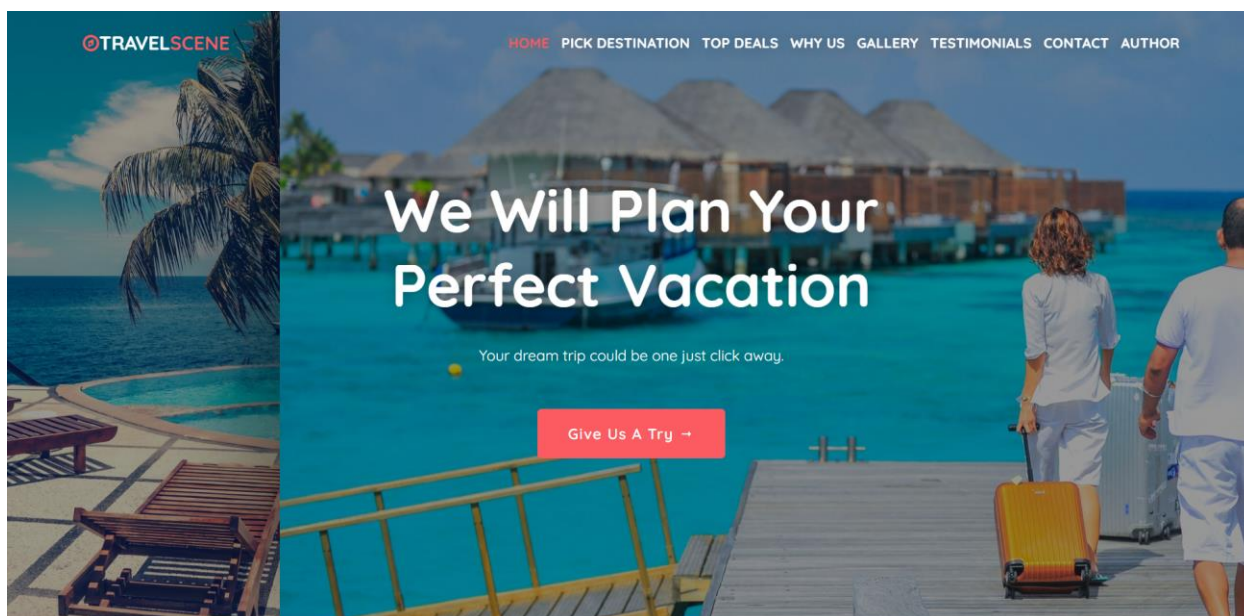

Animacija je napisana pomoću JavaScripta i biblioteke jQuery.

2.3.3 Odeljak Pick Destination

U ovom odeljku nalazi se **dinamički sadržaj** ispisan iz objekta, nezavisno od količine.
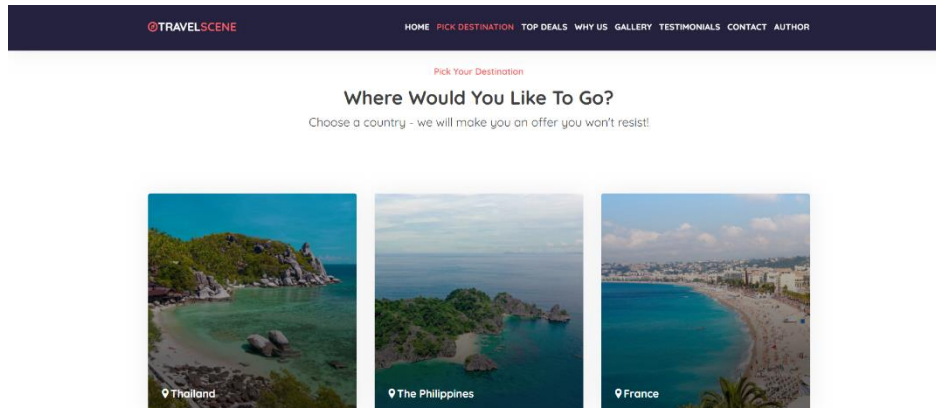

Korisniku su inicijalno ponuđene sve **države**.
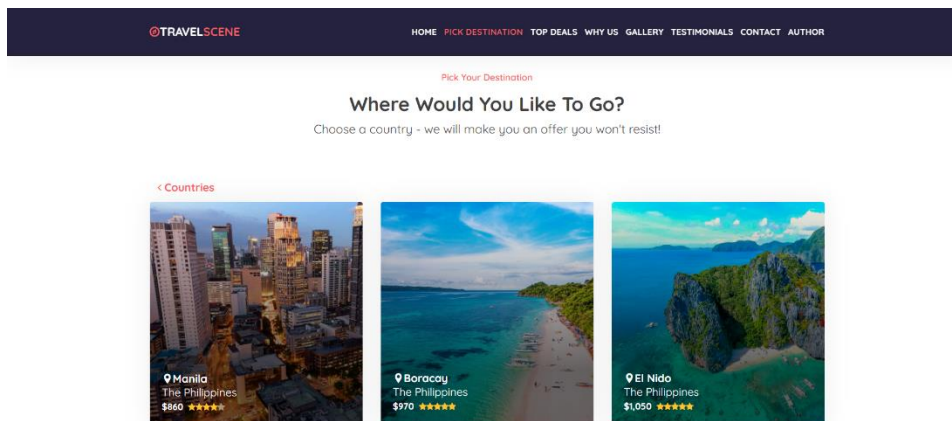

Klikom na jednu od država, korisniku se prikazuju **destinacije** (ponude) koje pripadaju toj državi. Moguć je i povratak na države klikom na link Countries.
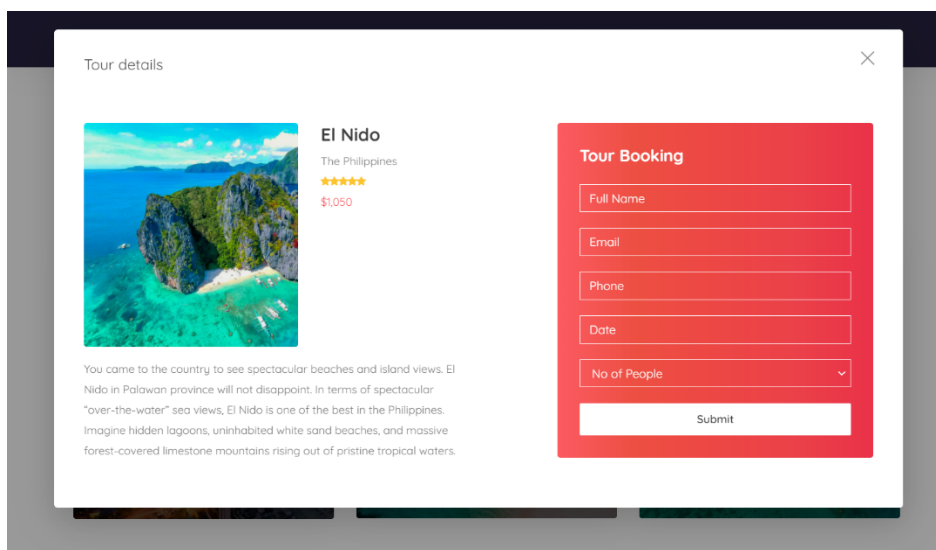

Klikom na destinaciju, otvara se modal sa dodatnim **informacijama o ponudi** (**dinamičko ispisanim**) i **formom** za zakazivanje putovanja.

2.3.4 Forma za zakazivanje putovanja

Nalazi se na modalu koji sadrži više informacija o ponudi, a provera unetih podataka vrši se pomoću regularnih izraza.

Od korisnika se očekuje da **nijedno polje ne bude prazno**. Takođe, sve mora biti uneto u **pravilnom formatu** (npr. puno ime mora imati bar dve reči i svaka reč mora početi velikim slovom). Postoji i ograničenje u vidu **broja karaktera** (npr. imejl adresa ne sme biti duža od 50 karaktera).

2.3.5 Odeljak Top Deals
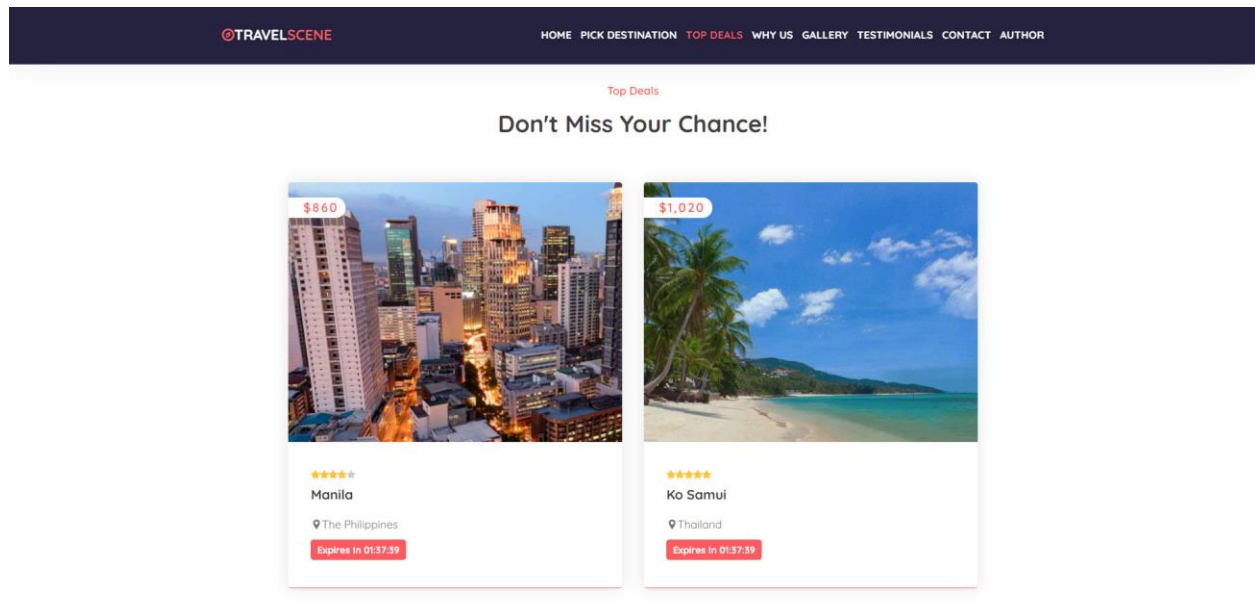

Ponude u okviru ovog objekta se dinamički učitavaju iz niza koji ukazuje na ponude iz glavnog objekta. Korisniku je naznačen **tajmer** koji odbrojava do kraja dana, odnosno za koliko vremena te ponude ističu.
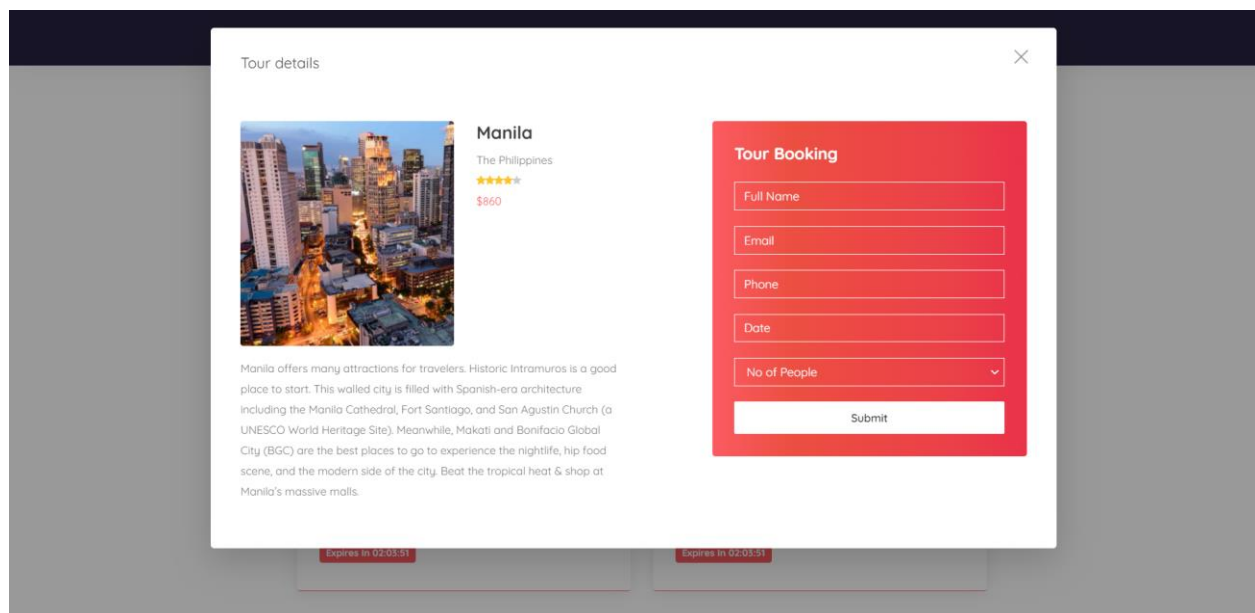

Klikom na jednu od ponuda se otvara isti modal kao u prethodnom odeljku.

2.3.6 Odeljak Why Choose Us
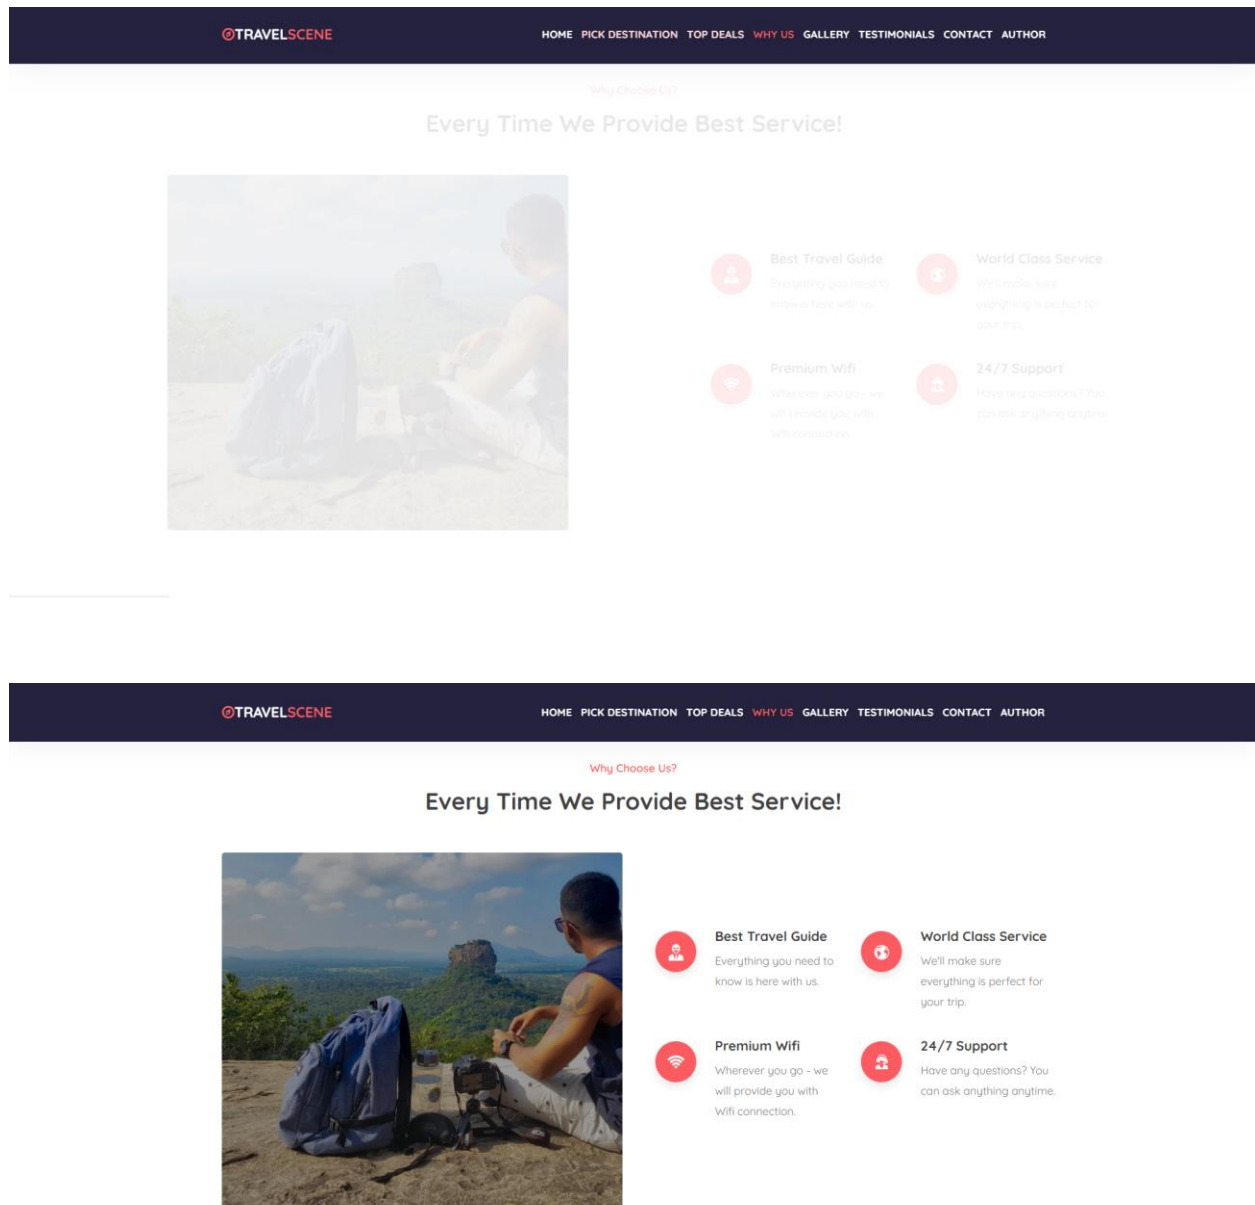

Prilikom svakog ulaska i izlaska u vidno polje ovog odeljka dešava se **animacija pojavljivanja/nestajanja** sadržaja ovog odeljka.
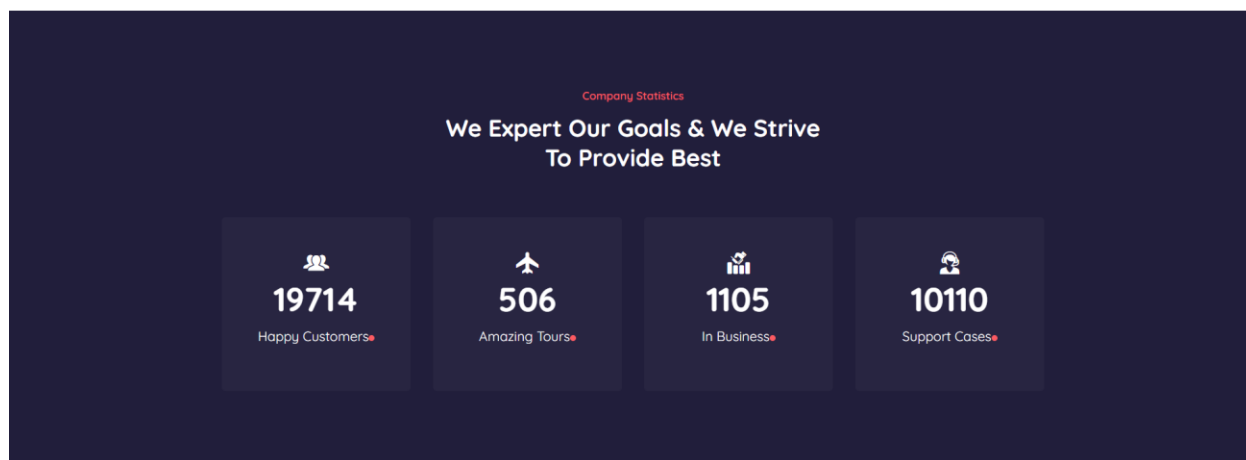

Statistički podaci i elementi u kojima se oni nalaze su **dinamički ispisani** iz niza.
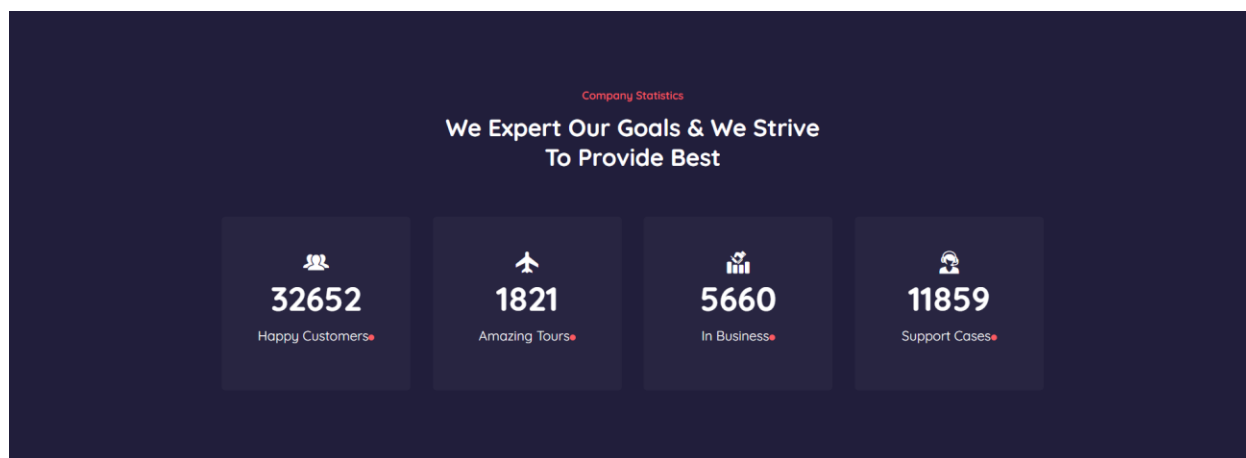

Ovaj odeljak poseduje **brzi efekat inkrementacije** brojeva do odgovarajućih vrednosti koji se dešava svaki put kad se skroluje u tačku gledišta ovog odeljka.

2.3.8 Odeljak Tour Gallery
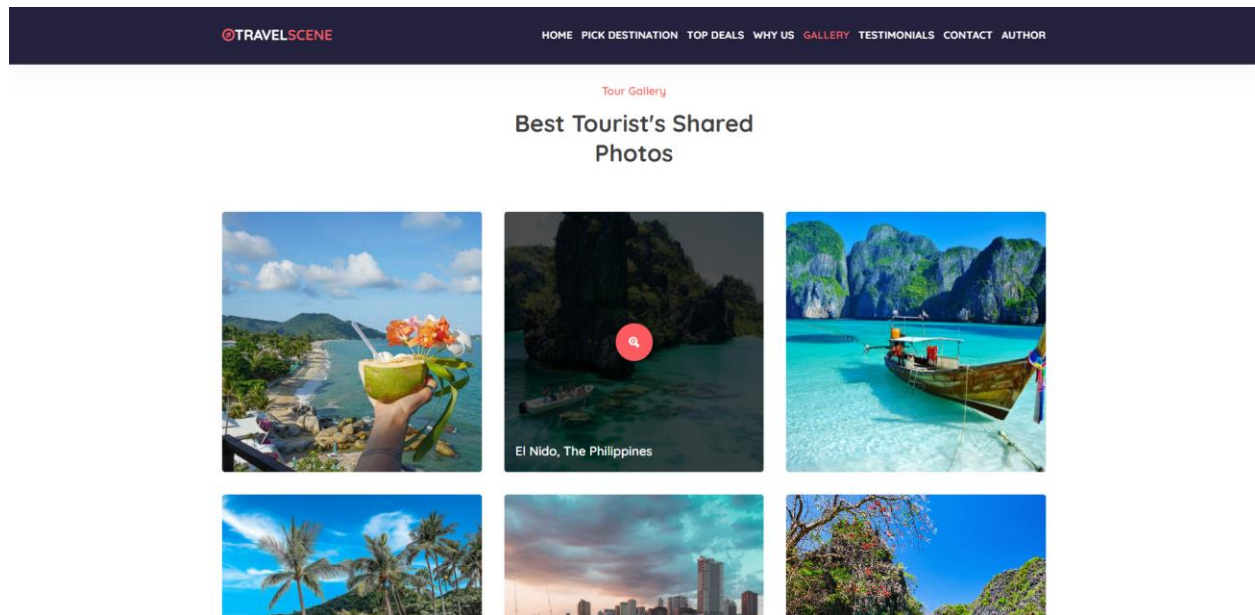

U ovom odeljku nalaze se slike na kojima se, prelaskom miša preko njih (realizovano CSS-om iz gotovog rešenja), pojavljuju naslov i **link koji vodi ka toj slici**.

Klikom na link, otvara se povećani prikaz te slike. Ovo je realizovano pomoću **jQuery plugina lightGallery**.

2.3.9. Odeljak Testimonials
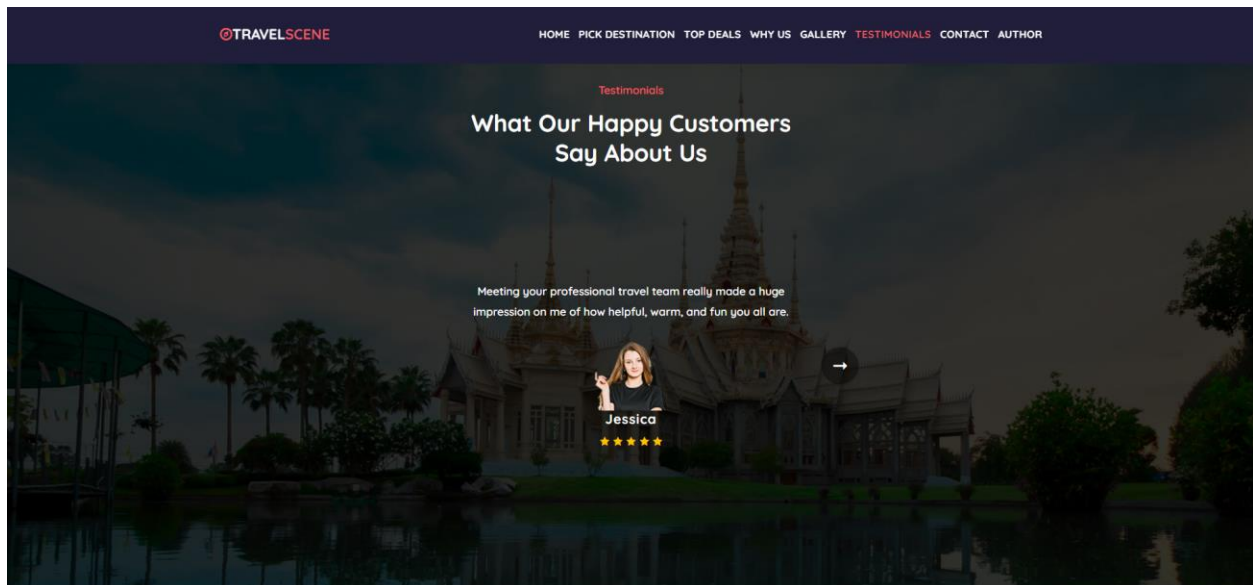

Sadržaj ovog odeljka se **dinamički ispisuje**, a utisci (svedočenja) klijenata se nalaze u okviru **interaktivnog slajdera** gde se korisniku nudi da pređe na sledeći/prethodni utisak.
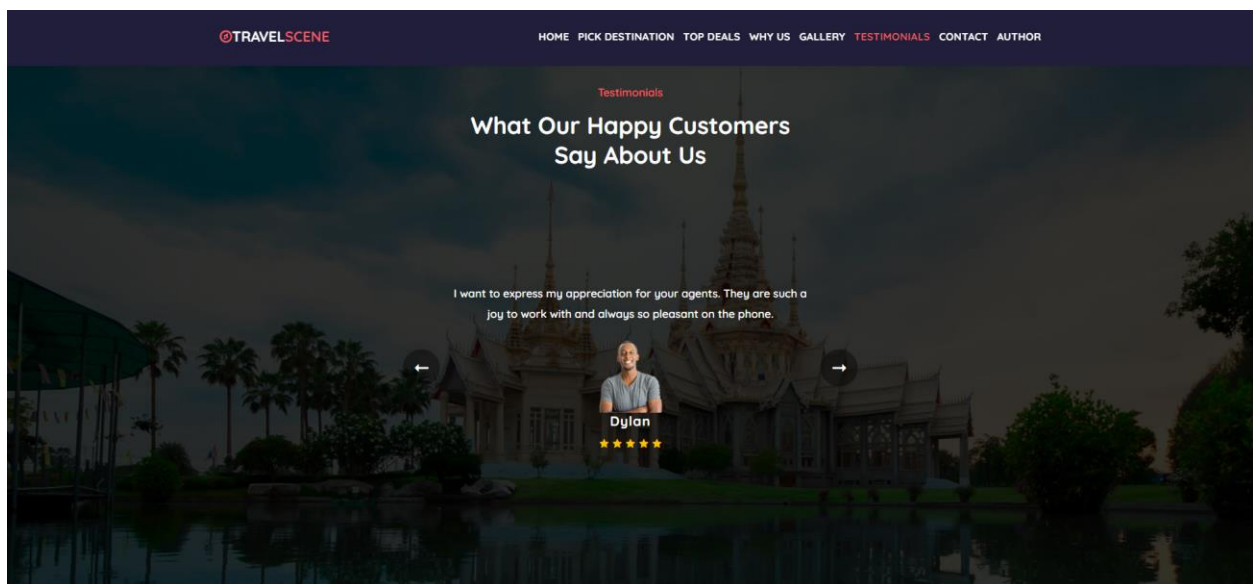

Klikom na strelicu menja se slajd uz **efekat** napisan pomoću JavaScripa i biblioteke jQuery. Nakon promene slajda strelice se pojavljuju samo **ukoliko postoji sledeći/prethodni slajd**.

13

2.3.10. Odeljak Contact Us

U ovom odeljku nalazi se forma, a podaci koje korisnik unese u nju se proveravaju između ostalog upotrebom **regularnih izraza**. Ako je unos ispravan, korisniku se prikazuje obaveštenje da je poruka uspešno poslata.

Po unosu karaktera/teksta u polje za poruku pojavljuje se **broj preostalih karaktera**, a nakon toga dalji unos neće biti dozvoljen. Sva polja **moraju biti popunjena**, a za ime, imejl adresu i temu koriste se **regularni izrazi** radi provere ispravnog unosa.

14

2.3.11 Odeljak About Author
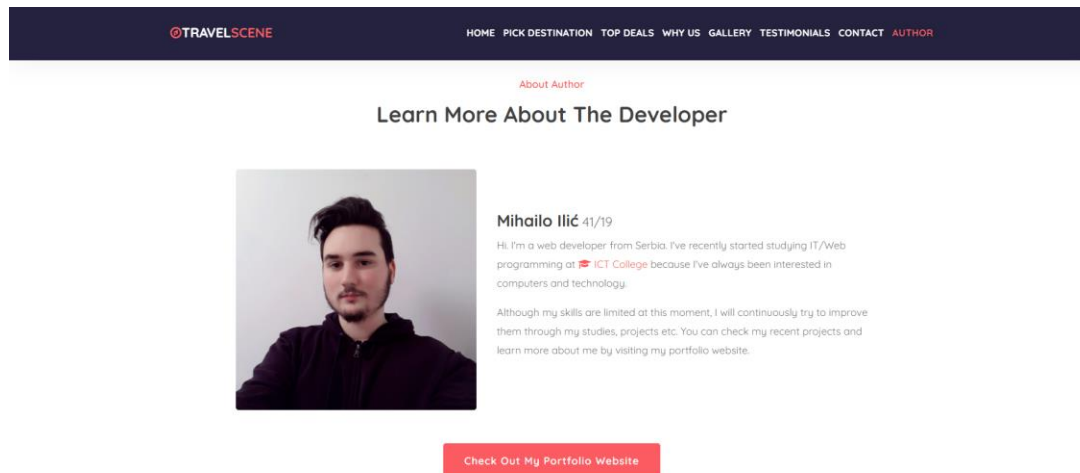

Ne postoji nikakva posebna funkcionalnost u ovom odeljku.

2.3.12 Podnožje stranice (futer)
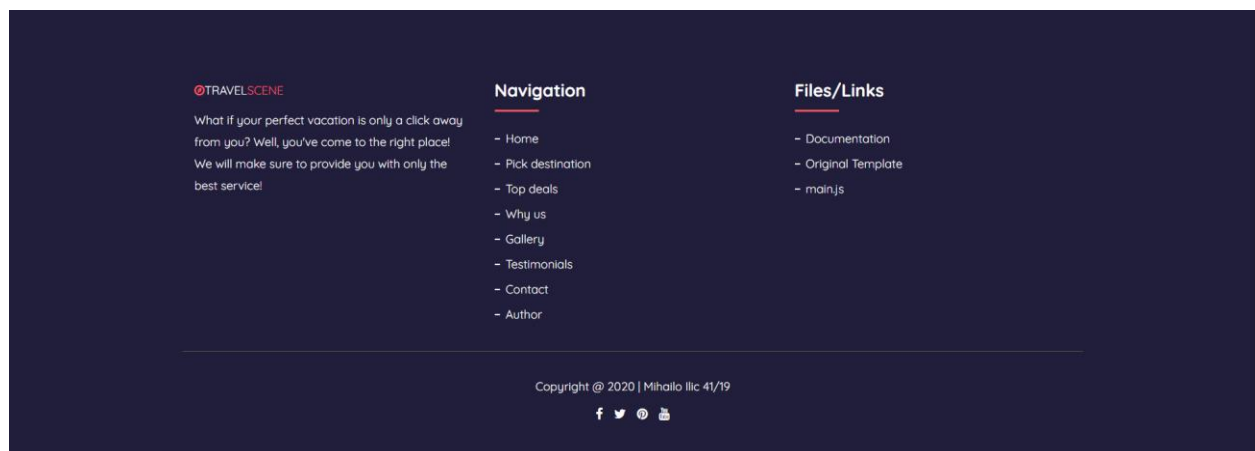

Osim dinamički generisane navigacije ne postoji nikakva posebna funkcionalnost u ovom odeljku.
